

## SPORTSWORLD GROUP LTD. SUSTAINABLE DEVELOPMENT POLICY FOR ISO 20121 EVENTS

Sportsworld, part Travelopia Holdings., is an events management, corporate hospitality and sponsorship services provider for sporting events in the UK as well as for major international sport events around the world.

### Vision

*Our vision is to make event hospitality experiences special by providing bespoke event services that cause minimal environmental impact, respect the culture and people we work for and with and offer real economic benefit to the communities in which we operate.*

### Policy

Sportsworld understands that events as our main business have a social, economic and environmental impact. This recognition leads us to constantly try and improve our working methods: We are committed to develop, implement and continually improve a sustainable event management system which, in turn, will help our business to manage and enhance the environmental, economic and social impacts of our events. We will achieve this by complying with all applicable legislation and regulations, and adopting voluntary codes of best practice as well as meeting the requirements of ISO 20121.

Sportsworld has adopted the well-established 'One Planet Living' principles of sustainable development and intends to use these as a framework for its sustainable event management system in addition to its core values and general principles.

Responsible Leadership is one of the company's core values, and underlines our commitment to sustainable development and to making a positive impact on society.

With respect to its sustainable development ambition, Sportsworld intends to:

- Identify, communicate and engage with our key stakeholders and supply chain to deliver its commitment to sustainability principles;
- Set specific sustainability objectives and targets against KPI's based upon the Sportsworld's significant issues;
- Allocate appropriate resources to deliver sustainable events;
- Provide leadership and best practice in the field of sustainable event management within the corporate hospitality and events management sector.

Following a detailed review of Sportsworld's activities these important sustainability issues were identified:

- Unsustainable material consumption (e.g. low durability, non-reusable, non-recyclable, non-biodegradable)
- Greenhouse gas emissions
- Waste generation (non-hazardous) & Waste Management
- Litter
- Public Health & Safety
- Occupational Health & Safety
- Customer Satisfaction

The policy will be publicly available and will be reviewed annually.
